

**WHERE:** Istanbul is the most populous city in Turkey and it is the economic, historical and cultural center of the country. Thanks to its 12 million visitors, it is the 5th most visited city in the world.

**SALES AGENT:** BAYMAK is a company that counts 2 production plants, 600 employees, 1000 dealers, 2100 sales points and 1500 service technicians all across Turkey. Thanks to its 50 years of experience in the HVAC market, it is always focused on innovation and on producing high technology goods.

**CONTRACTOR:** MODUS HOTEL

## THE REQUEST:

MODUS hotel counts 48 rooms spread into 5 flats. Customers complained about the high noise due to the pressurization system; indeed, the appliances were supplied by an old, noisy and low efficient booster set.

Therefore, they decided to replace this booster set with an easy to use, easy to install and silent system: ESYBOX!

Considering the high number of rooms to serve, a system of 2 esybox and 1 esybox twin was installed.

2 x ESYBOX

**FLOW MAX (Q):** 120 l/m

**HEAD MAX (H):** 65 m

### TECHNICAL FEATURES:

- Integrated VFD, expansion vessel and sensors;
- Quick and easy installation;
- Noise level: 43 dB

1 x ESYBOX TWIN

**FLOW MAX (Q):** fino a 240 l/m

**HEAD MAX (H):** fino a 65 m

### TECHNICAL FEATURES:

- Integrated VFD, expansion vessel and sensors;
- Quick and easy installation;
- Noise level: 43 dB

**CHANNEL:** Residential and Domestic Building Service

**APPLICATION:** Pressurization;
